

Cigital Co-Founder Jeffery Payne Launches New Software Company

Coveros, Inc. to Focus on Accelerating Business Success Through Better Software

Herndon, Va., November 6, 2008 — Jeffery Payne, former Cigital CEO and Co-Founder, today launched Coveros, Inc., a company that helps organizations accelerate the delivery of secure, reliable software.

“Business executives continue to be frustrated by the amount of time and energy it takes to build business-critical software,” says Jeffery Payne. “Using agile development and software assurance best practices, Coveros deliver secure, reliable software on time and budget.”

Coveros provides a comprehensive set of services to help organizations gain business value from their software. These services include:

- Secure Agile Software Development
- Application Security
- Agile Testing & Automation
- Agile Project Management
- Software Process Improvement

Prior to starting Coveros, Mr. Payne built Cigital, Inc. into a market leading application security and quality company that was twice listed in the Inc 500 as one of the fastest growing private companies in the country. After bootstrapping Cigital for 10 years, Mr. Payne raised \$5M in expansion capital to grow the company. Today Cigital is a thought leader in application security and quality.
