

Coveros and Fortify Software Partner on Application Security

Coveros selected by Fortify as Preferred Consulting Partner

Herndon, Va., August 26, 2009 — Coveros, Inc., a company that helps organizations accelerate the delivery of secure, reliable software, today announced it has been selected by Fortify Software as a Preferred Consulting Partner.

Under the terms of the partnership, Coveros will recommend Fortify's Software Security Assurance solutions to its customers and prospects as the company's preferred provider of services to protect organizations from the threats posed by security vulnerabilities in business-critical software applications. Fortify will recommend Coveros to its customers and prospective customers as Fortify's preferred provider of application security and quality assurance solutions.

"We are thrilled to standardize our application security services around Fortify's market leading product suite," says Jeffery Payne, Coveros CEO. "We are equally excited about Fortify's recognition of Coveros as a market leading application security and quality assurance solution provider."

"Fortify Software provides our customers with the best overall solution to help organizations avoid data breaches by proactively assessing, removing and preventing exploitable vulnerabilities in their business-critical software and applications," says John M. Jack, CEO of Fortify. "We believe Coveros delivers best of breed service to support our products as well as an excellent solution for making their software reliable and secure."

About Coveros, Inc.
